<p>Specially developed to optimise shifting performance of MB automatic transmission. Approved against MB 236.14. Ideal for MB vehicles &lt;2012.</p>	<p>Ideal for many current MB vehicles. Especially light commercial such as Sprinter. Approved against MB 236.15.</p>	<p>Premium Performance ATF with reduced viscosity, especially developed to further optimize fuel-economy and gearbox efficiency of latest generation Mercedes-Benz 9-speed automatic transmissions. With BluEV Technology additionally applicable in hybrid vehicles of different manufacturers. Product dyeing: none.</p>	<p>Premium Performance ATF with reduced viscosity, especially developed to further optimize fuel-economy and gearbox efficiency of latest generation Mercedes-Benz 9-speed automatic transmissions. Not downwards compatible with previous MB-ATF-Specifications. Product dyeing: none.</p>	<p>Specially developed to optimize the shifting performance of most 6 speed ZF applications.</p>	<p>Premium Performance ATF, specially developed to optimize the shifting performance of ZF automatic transmissions.</p>	<p>Premium Performance ATF, specially developed to optimize the shifting performance of latest generation ZF automatic transmissions.</p>	<p>Ultra High Performance ATF for use in automatic transmissions as well as other ATF applications. Licensed according to DEXRON III (H). Improved low-temperature shifting compared to DEXRON II.</p>	<p>Modern multi vehicle Low Viscosity ATF. Carries both Dexron IV and Mercon LV approvals. Broadest car parc coverage when combined with TITAN ATF 4400.</p>	<p>Specially developed for use in double clutch transmissions with wet clutches.</p>	<p>Modern DCT Fluid. High Euro coverage. Approved against ZF and MB.</p>	<p>High-performance CVT transmission oil formulated with selected base oils especially for use in Mercedes-Benz and Ford CVT transmissions. It offers excellent wear protection, optimized low-temperature properties and reliable friction characteristics over the entire drain interval.</p>
